PLEASURE IN READING

Mail borrowed books

At many schools, the school library is open again! That's good news, because it means all of our books can be borrowed again! Children become extra motivated to read when there is attention for what they read. This also gives you the opportunity to talk to your child about the books they have borrowed.

You may have recently received an email from Eindhoven Library with a reminder to return your child's books to the library at school. This can be about books they have borrowed for class or at home. We would appreciate it if your child returns these books to the school library as soon as possible. In this way we can ensure together that as many children as possible can borrow the books.

MEDIA LITERACY

De Voorleeshoek

Reading a lot provides a better understanding of the story and is good for language development. Reading aloud also creates a relaxed and cosy moment with your child.

If you want to alternate reading aloud yourself with a reading video, you can use De Voorleeshoek. On this website you can find reading clips in Dutch for different ages: 0-4, 4-7 and 7-10 years.

Scroll down on [this page](#), log in with your library account and enjoy all of the beautiful stories together.

TIP FROM THE LIBRARY

The campagne '[Gift a book](#)' has the mission to let all children in the Netherlands grow up among the most beautiful books. From **23 april** the book 'De brief voor de koning' will be sold at your local bookshop for € 3,50.

In the online library app you can find 'De brief voor de koning' as an [audiobook](#) in Dutch. In addition to reading the book yourself, you can also dream away with Tiuri's adventures this way.
